

RABINDRA KHADKA

Operations, Warehouse & Retail Management Professional

Enmore, NSW 2042 | 0452 029 133 | Rabin02khadka@gmail.com

PROFESSIONAL PROFILE

Results-driven Operations, Warehouse, and Retail Management professional with over 3 years' experience leading multi-disciplinary frontline teams, optimizing inventory and resource distribution, and executing complex service delivery workflows, always working strictly within company policy, regulatory requirements, and established standard operating procedures. Interprets organizational targets and translates them into dynamic, localized daily task plans that consistently deliver sales creation, service excellence, and profitability. Combines a strong academic foundation in Information Technology with hands-on proficiency across Oracle Warehouse Management (WMS), Zebra PDA/RF scanning, FarEye delivery tracking, Solvup and RLO claims platforms, Citrix-hosted enterprise applications, and Customer Relationship Management (CRM) tools. Champions workplace diversity, EEO compliance, and proactive WHS hazard management while continuously adapting processes to achieve top-tier operational results across Operations Management, Warehouse Management, and Retail Management environments.

CORE COMPETENCIES

- Operations & Warehouse Management Leadership
- Oracle Warehouse Management System (WMS) & RF/Zebra PDA Scanning
- Claims Management: Solvup, RLO Damage & Shortage Resolution
- Retail Systems: POS, Payment Peripherals, Customer Pickup Support
- WHS Compliance & Hazard Mitigation
- Procurement Management & Resource Auditing
- Customer Relationship Management (CRM) & Sales Creation
- Inventory Control: Receipting, Directed Put-Away, Cycle Counts, Stocktakes
- Delivery Operations: FarEye Tracking & Exception Handling
- Citrix-Hosted Enterprise System Access & Compliance
- Data-Driven Reporting: Advanced Excel & Power BI
- Stakeholder Engagement & Dynamic Schedule Coordination

PROFESSIONAL EXPERIENCE

Operations Manager | *The Good Guys, Alexandria*

Nov 2023 – Present

- Directs daily front-of-house and back-of-house operations, resource allocation, and staff scheduling in full compliance with company policy and operating procedures, building a target-driven, high-accountability team culture.
- Leads sales creation initiatives and customer relationship management (CRM) practices that strengthen client retention, drive repeat business, and support consistent achievement of revenue and service targets.
- Manages tablet-based workflow tools and Power BI dashboards, linking field metrics to scheduling decisions and improving overall processing throughput by 40%, within established governance and reporting standards.
- Administers procurement protocols and vendor contract management across a \$5M+ asset pool, maintaining strict adherence to financial policy and achieving inventory variance of under \$3,000.
- Oversees performance evaluation and training for culturally and linguistically diverse teams, applying practical, visual training matrices that comply firmly with EEO principles and company policy.
- Acts as the primary escalation point for sensitive customer grievances, applying structured, policy-compliant de-escalation frameworks to reach balanced outcomes and protect customer relationships.

Warehouse Team Leader | *The Good Guys, Alexandria*

Aug 2022 – Nov 2023

- Manages inbound stock receipt, directed put-away, and inventory updates using Oracle Warehouse Management System (WMS) and Zebra PDA/RF scanning devices, in strict accordance with standard operating procedures.
- Completes weekly stocktakes and cycle counts to maintain high inventory accuracy, promptly investigating and resolving variances in line with company policy.
- Raises and tracks claims in Solvup and RLO for damaged, missing, or incorrect stock, ensuring timely, policy-compliant resolution and accurate record-keeping.
- Monitors delivery progress and service exceptions through FarEye to support on-time customer fulfilment and proactive issue resolution.
- Accesses and operates multiple enterprise systems, including POS and payment peripherals, through Citrix-hosted applications while maintaining full compliance and data accuracy.

- Enforces rigorous WHS standards and safe handling guidelines across active operational zones; established daily toolbox talks, regular safety walks, and comprehensive hazard maps to eliminate workplace risk.
- Transitions team logging from manual to digital field devices, standardizing data inputs and improving operational record-keeping and workflow accuracy by 25% within 12 months.
- Coordinates onboarding, safety inductions, and deployment scheduling for incoming team members, ensuring immediate alignment with operational and compliance standards.

Junior Data Analyst | *Paxform Pty Ltd, Parramatta*

Jan 2022 – Jul 2022

- Designs automated reporting tools and performance dashboards using Power BI and Excel, converting fragmented operational data into clear, actionable schedules for frontline fulfilment teams, in line with data governance standards.

EDUCATION, QUALIFICATIONS & LICENCES

- Bachelor of Information Technology — Federation University, Sydney (Specialization in IT Project Management & Database Systems) | GPA: 4.96
- Professional Year Program — Australian Computer Society (Focused on Corporate Communications & Workplace Relations)
- Current NSW Class C Motor Vehicle Driver's Licence — clean driving record
- Work Health & Safety Commitment
